Co-organized by:

H K C N A
Hong Kong Community Nurses Association

Hong Kong Enterostomal Therapists Association

香港造瘻治療師學會 | HKETA

Established in 1994, the Hong Kong Enterostomal Therapists Association (HKETA) is a professional nursing organization dedicated to advancing excellence in **stoma, wound and continence care**. For over 30 years, HKETA has supported Enterostomal Therapists and specialist nurses in Wound and Stoma Care through professional education, clinical standards development, advocacy, and collaboration with healthcare partners locally and internationally.

HKETA strives to be a leading professional organization, recognized locally and internationally for promoting high standards in enterostomal therapy nursing. Its mission is to enhance the quality of healthcare services through continuous professional development, evidence-based practice, and multidisciplinary collaboration.

Over the years, HKETA has made significant contributions to the advancement of enterostomal therapy services in Hong Kong. The Association has helped establish comprehensive standards in stoma, wound and continence care, strengthened nursing competency through educational activities, newsletters and professional bulletins, and promoted knowledge exchange among healthcare professionals.

HKETA's achievements also extend to the international arena, reflecting its commitment to global collaboration and professional excellence. Guided by the values of excellence, professionalism, education, collaboration, innovation, service and leadership, HKETA remains committed to advancing specialist nursing practice and improving the wellbeing of patients and the community in the field of stoma, wound and continence care.

Hong Kong Community Nurses Association

香港社康護士協會 | HKCNA

The Hong Kong Community Nurses Association (HKCNA) was established in 2002 and, as of 2026, has more than 300 members. Our committee members come from various Hospital Authority community nursing service units. The Association provides professional training and regular educational activities on topics of interest to community nurses and is accredited by the Hong Kong Nursing Council to grant CNE points for its educational activities.

Our aims are to:

1. Promote the professional and educational interests of nurses engaged in community nursing.
2. Provide lectures, classes, conferences, exhibitions, and public meetings, and publish bulletins to advance the work of community nurses.
3. Promote professional and educational development in caring for the sick and in improving nursing services for the community.
4. Initiate and support research to address nursing and health-related issues and challenges.

For future advancement, HKCNA will continue to provide the platform for knowledge and experience exchange between community nurses and we will continue to extend our collaborations and communications with other nursing specialties to foster a high quality community nursing service in Hong Kong.

DEAR PARTICIPANT,

On behalf of the Hong Kong Enterostomal Therapists Association (HKETA), it is our great pleasure to welcome you to the HKETA Symposium 2026, organised in collaboration with the Hong Kong Community Nurses Association.

As the annual flagship event of HKETA, the symposium provides an important platform for professional exchange, knowledge sharing, and updates on the latest developments in stoma, wound and continence nursing. This year's theme is:

Stoma, Wound and Continence Nursing: Building Foundations for a Sustainable Future

This year, we are delighted to introduce new enhancements to the programme, including plenary sessions, industry sessions, poster presentations and oral presentations. These additions mark an important step towards a more scientific and comprehensive symposium, covering key areas in stoma, continence and wound care.

We are encouraged by the strong support received, with more than 300 participants registered – the highest number in our history. Participants are joining us from Hong Kong, the Greater Bay Area, Taiwan and Macau, representing diverse clinical settings from primary to tertiary healthcare.

We are also grateful to our 20 industry partners and the Hong Kong Stoma Association, another record for HKETA, for their valuable support through booth showcases and sponsored sessions. Our sincere thanks also go to all our distinguished speakers and moderators, many of whom are leading experts in Hong Kong and beyond, for sharing their expertise and insights.

We hope this symposium will inspire new ideas, strengthen professional connections, and support our shared commitment to building a sustainable future in stoma, wound and continence nursing.

We look forward to welcoming you and wish you a fruitful and enjoyable symposium.

Continuous Nursing Education (CNE) Points Application

For Nursing Delegates in Hong Kong

Hong Kong nursing delegates who wish to apply for CNE points must:

- 1 **Complete registration on time** at the symposium.
- 2 Attend the symposium sessions.
- 3 **Check out before the end** of the symposium to confirm attendance.
- 4 The check-out method will be announced during the **Closing Ceremony**.

Important Reminder

Please ensure you complete both registration AND check-out procedures to support your CNE points application.

HKCNA will email the CNE certificate to you at your designated email box in due course after the event.

Plenary Session

PLENARY SESSION-
MORNING

FOCUS SESSION- INNOVATIONS AND
TECHNOLOGY

Impact of Service Enhancement on Intra-abdominal Negative Pressure Wound Therapy in Complex Open Abdominal Wounds: A Retrospective Study

Biography

PANG Yuk Kam is a Nurse Consultant in Stoma and Wound Care at Queen Elizabeth Hospital and the Kowloon Central Cluster in Hong Kong. She has worked in stoma and wound care nursing since 2009 and has been in the Hospital Authority since 1994. Her career progressed from Registered Nurse to Advanced Practice Nurse, and she was promoted to Nurse Consultant in 2018, where she has helped strengthen stoma and wound care services across KCC hospitals.

She played a key role in introducing a 3-tier wound care model in KCC, which supported the training and recognition of around 800 second-tier wound nurses and 40 third-tier wound nurses. This initiative improved professional wound care and provided structured coaching for junior nurses.

From 2021 to 2023, she served as convenor of the Specialty Advisory Group - Enterstomal Therapy of the Hospital Authority, contributing to standards, guidelines, training, research, service improvement, and public education. She remains an active core member and also chairs a specialty nursing service committee at cluster level.

Ms. CHUNG Ying Ying

Hong Kong

Plenary Session

PLENARY SESSION-
AFTERNOON

Improving Patient Flow and Outcomes: A Programmatic Approach and One-Year Outcomes of a Trial Wean Off Foley

Biography

Catherine CHUNG Ying Ying is a Nurse Consultant in Continence Care with Kowloon East Cluster of the Hospital Authority. She has worked in the Hospital Authority since 1991 and has more than 20 years of experience in urology and continence nursing. Her academic qualifications include a Bachelor of Nursing, a Master of Management in Health Care, a Post Registration Certificate in Continence Care Nursing, and a Diploma of Fellowship in Urology Surgery.

Her career includes working as urology nurse in Princess of Wales Hospital from 1997 to 2016. She was the clinic in-charge of Geriatric Urology Centre in Tung Wah Hospital from 2016-2018, and later working as a continence nurse at United Christian Hospital. Catherine currently is the Nurse Consultant of the Kowloon East Cluster of Hospital Authority who is responsible for the nurse clinic, inpatient consultation and continences services development.

Ms. CHUNG has contributed to research and conferences, promotes public health through talks and publications, and serves in leadership roles in continence care. She also supports professional education as a co-program director and honorary speaker for nursing programmes and universities.

Venue: Building 10W, Hong Kong Science Park

Getting to Hong Kong Science Park

By Shuttle Bus

HKETA has arranged shuttle bus services for participants. Details are as follows:

To Venue (Outbound)

Pickup: **Pai Tau Street**, Sha Tin - From Exit B of MTR Sha Tin Station, walk downhill along Sha Tin Station Circuit towards the Leisure and Cultural Services Department Headquarters for about 2-5 minutes to arrive.

(沙田排頭街- 港鐵沙田站 B 出口沿沙田車站圍落斜向康文署總部方向步行約 2-5 分鐘即可抵達)

Destination: Hong Kong Science Park

Departure: **09:00**

Buses: 5 buses (60 seats each)

Boarding: Buses depart one by one once fully seated

Return (Inbound)

Pickup: Hong Kong Science Park

Destination: **Pai Tau Street**, Sha Tin (沙田排頭街)

Departure: **17:30**

Buses: 5 buses (60 seats each)

By MTR + Bus

From University Station:

- KMB Bus **272K** (Get off at Hong Kong Science Park Phase 3)
- KMB Bus **272A** (Get off at Science Park Phase 1)

From Diamond Hill Station:

- KMB Bus **272S** (Get off at Hong Kong Science Park Phase 3)

From Tai Po Market Station:

- KMB Bus **272A** (Get off at Science Park Phase 1)

By Taxi

Drop-off: Hong Kong Science Park, Building 10W (near Charles K Kao "Golden Egg" Auditorium)

Estimated: 15 mins from Sha Tin/Tai Po; 30 mins from Kowloon central

By Driving

Parking: Hourly visitor parking at HKSTP multi-storey and underground car parks

Directions: Enter via Science Park Road, follow signs for Visitor Parking near Building 10W / Zone 2

**First come, first served.
Seats are limited —
please arrive early to
secure your seat!**
